ABSTRACT:

PURPOSE: To obtain a skin preparation for external use having activities for preventing and curing dermal inflammations and preventing and improving the symptoms of skin aging.

CONSTITUTION: This skin preparation for external use contains an alkali metal or an alkaline earth metal salt of L-ascorbic acid 2-phosphate, a glucose glycoside of L-ascorbic acid (2-O-alpha -D-glucopyranosyl-L-ascorbic acid) or an oligoglycoside of L-ascorbic acid as an essential ingredient and, if needed, other skin inflammation-suppressing ingredients and/or lipoperoxide suppressing ingredients to be compounded in the preparation.
